

Learner Guidance & Support Policy

Introduction

- The purpose of this policy is to ensure that all learners receive the necessary advice, guidance and support in order to optimize their achievement on courses that are completely appropriate to their needs.

Responsibility & scope

- This policy covers all learners and all academic, learner support entails learner

Academic learner support

The learner support are working with students to develop study and exam-writing skills; to develop planning and organizational skills; to build confidence; and to support learners.

Foreign language learners

English teacher supports learners who learn English as a foreign language by providing basic extra classes.

Study skills and organizational support

Learners are normally referred to a educational psychologist. The Principal thereafter work directly with the education psychologist to assist the learner's development.

Parent, learner and teacher communications and support

Meetings are held with parents to find appropriate support for learners
